

RUFUS JONES

(707) 510-0107 | rufuscodes@gmail.com | San Francisco Bay Area | github.com/rufuscodes

"Versatile professional with a unique blend of technical expertise in full-stack software engineering and hands-on leadership in security operations. Proven track record of managing critical systems, supervising teams in high-pressure environments, and delivering reliable results."

PROFESSIONAL EXPERIENCE

SOC Supervisor (Security Operations Center)

Allied Universal @ Bio-Rad Laboratories 2024 – Nov 2025

- Supervised night shift operations for a major biotech campus, coordinating emergency response across multiple facilities.
- Monitored extensive CCTV networks, access control systems, and alarm panels, ensuring rapid resolution of security breaches.
- Led shift briefings, enforced post orders, and ensured compliance with safety protocols.
- Utilized digital tools for incident reporting, tracking metrics, and generating shift reports.

Mobile Patrol Officer

Allied Universal 2023 – 2024

- Conducted vehicle/foot patrols to secure physical assets and deter unauthorized access.
- Responded immediately to alarms and service calls, coordinating with local law enforcement.

Logistics & Delivery Partner

DoorDash / UberEats (Independent Contractor) 2020 – 2023

- Managed timely pickup and delivery in a fast-paced environment, maintaining high satisfaction ratings.
- Operated as an independent business owner, handling scheduling and route optimization.

Production Associate (Model Y)

Tesla (Fremont, CA) 2021 – 2022

- Assembled Model Y structural components on a high-volume line.
- Adhered to strict SOPs and safety protocols to ensure build quality.
- Collaborated with teams to meet aggressive daily production targets.

Quality Assurance Analyst

Blue Shield of California 2011 – 2012

- Designed/executed automation scripts for software testing using open-source tools.
- Collaborated with developers to define comprehensive test plans and ensure product quality.

SOFTWARE PROJECTS

Hella Recipes [hella.recipes](#)

Full Stack Engineer Aug 2023 – Present

- Led full development lifecycle using **Django**, **Python**, **PostgreSQL**.
- Designed responsive UI with Bootstrap and custom CSS.
- Deployed on Akamai Cloud using Nginx/Gunicorn for high availability.

Pokemon.id [pokemon.id](#)

Full Stack Engineer 2023 – Present

- Built robust backend using **Express.js** / **Node.js**.
- Implemented dynamic content rendering with EJS/Handlebars.
- Deployed on Heroku for scalable architecture.

Mosh City [mosh.city](#)

Wordpress Developer 2017 – Present

- Integrated social media plugins for user engagement.
- Developed custom post types and headless WP configurations.

TECHNICAL SKILLS

Python (Django)
JavaScript (React)
Node.js / Express
HTML / CSS PostgreSQL
MongoDB Linux (Ubuntu)
AWS / Google Cloud
Docker / Nginx Git / GitHub

OPERATIONAL SKILLS

SOC Management
CCTV Monitoring
Incident Response
Access Control
Shift Supervision
Physical Security
Emergency Coord.

EDUCATION

General Assembly

Software Engineering Immersive
July 2023
